STEP 1

Make sure you have a compatible Fire Tablet

Not sure which Fire tablet you have? Instructions here:

Open **SETTINGS > DEVICE OPTIONS**

Osmo is compatible with the following Fire Tablets:

- 7th Generation Fire 7
 - 7th Generation Fire HD 8
 - 7th Generation Fire HD 10
 - 8th Generation Fire HD 8
 - 9th Generation Fire 7
 - 9th Generation Fire HD 10
 - 10th Generation Fire HD 8
- (additional [reflector adapter](#) needed)*

**The following games are currently not compatible with new Fire HD8 launched May 2020 (10th Generation Fire HD 8): Math Wizard Games (Secrets of the Dragons and Magical Workshop), Super Studio Games (Disney Mickey Mouse & Friends and Disney•Pixar Incredibles 2), Lettertopia, Math Buzz, Detective Agency, Pizza Co., Monster, MindRacers.*

STEP 2

Make sure you have an Osmo Base for Fire

	Front	Back	Side	Back of Reflector
<div>A</div> <div>Classic Base for Apple iPad</div>				
<div>B</div> <div>Current Base for Apple iPad</div>				
<div>C</div> <div>Base for fire tablets (Legs Retracted)</div>				
<div>D</div> <div>Base for fire tablets (Legs Extended)</div>				

STEP 3

Make sure you have an Amazon app store account created

Follow the steps listed on [this webpage](#) to create your Amazon app store account.

STEP 4

Make sure you have an Internet connection

An internet connection is needed to:

- download the apps onto the Fire tablet
- create a myOsmo account
- sync game progress in myOsmo
- download Words albums
- use search feature in Masterpiece game

STEP 5

Place your device on the Osmo base and center the reflector over the camera

Legs Retracted

Legs Extended

*Legs Extended With
Reflector Adapter*

STEP 6

If you received a redemption code, you can redeem it on playosmo.com/redeem

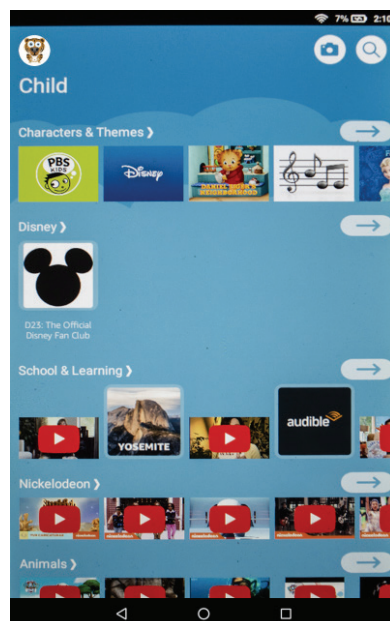

(If you do not have a code to redeem, go to step 7)

1. On your computer or smartphone, go to playosmo.com/redeem and enter your code.
2. Enter your email to login or create a new account.
3. Follow the instructions provided to complete your setup.

STEP 7

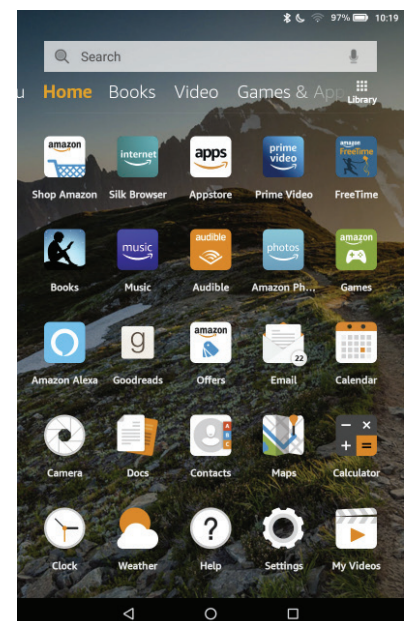

Check your current profile on your Fire Tablet

To download your games, you must be on a parent profile—games cannot be downloaded on Amazon Freetime (child profile).

Freetime (Child Profile)

If you are on Freetime (child profile) continue to step 8.

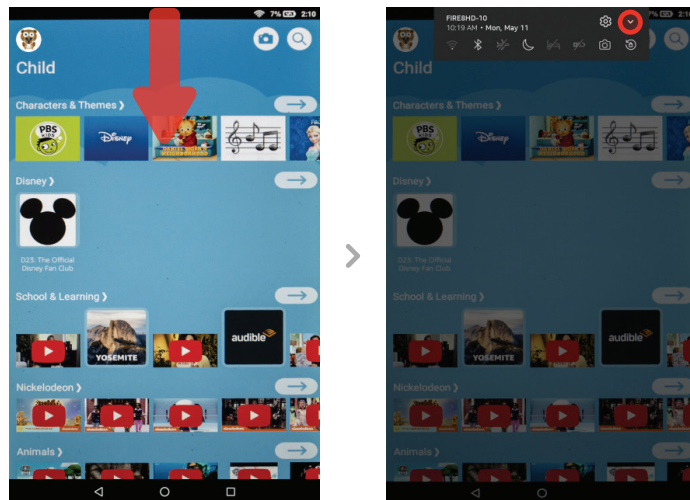

Parent Profile

If you are on a parent profile, continue to step 9.

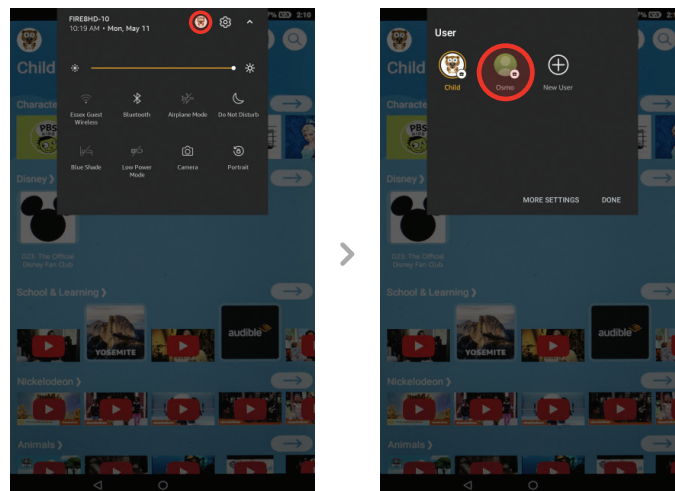

STEP 8

Switch from Freetime (child profile) to a parent profile

To switch profiles, start by swiping down from the top of the screen to reveal the top menu. Then swipe down/tap on the small arrow icon on the top right to expand the menu.

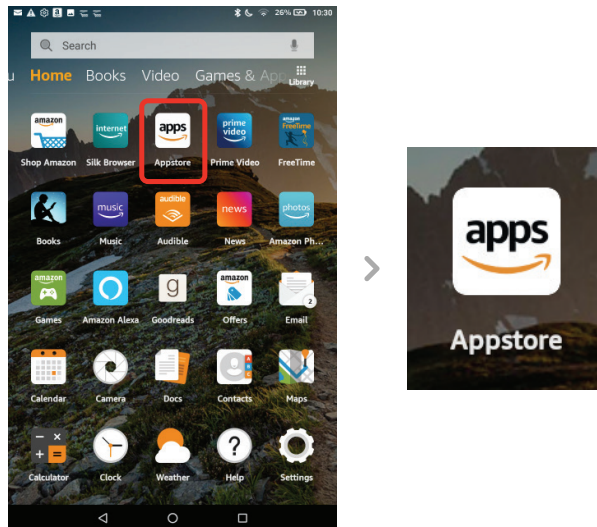

Click on the profile icon on the top of the menu, and then select your parent profile (if your profile is password protected, you will need to enter it after selecting the profile).

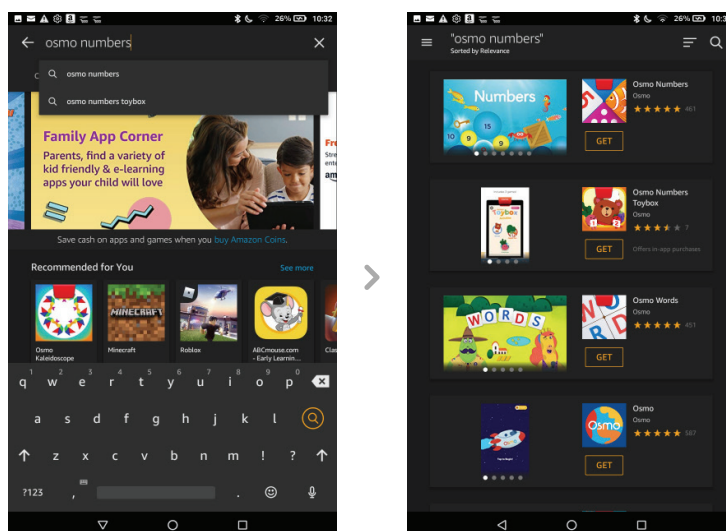

STEP 9

Download your games from a parent profile

On the home screen, select the **Appstore** icon to find your games.

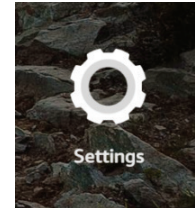

In the search bar on the top of the screen, search for your games. When you find your game, tap the **GET** button to download it. Repeat this process for all of your games:

STEP 10

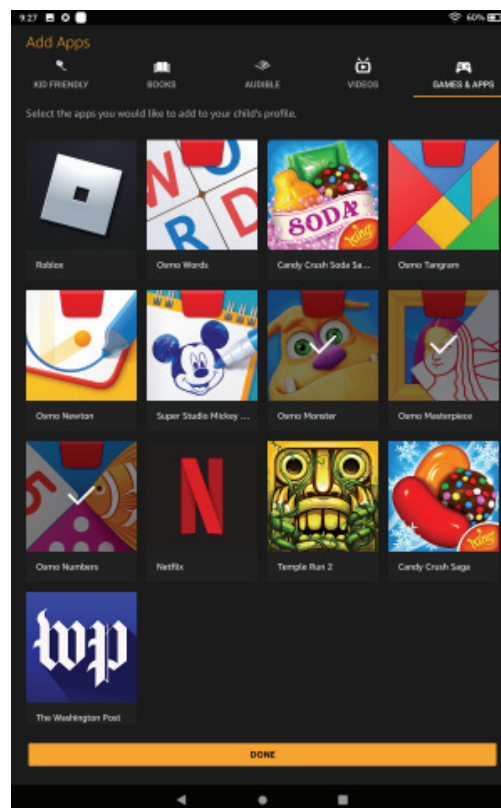

Send games from your parent profile to Freetime (child profile)

To access settings, find and tap on the **Settings** menu (gear icon).

In the settings menu, go to **Profiles & Family Library > Your Child's Profile > Add Content**.

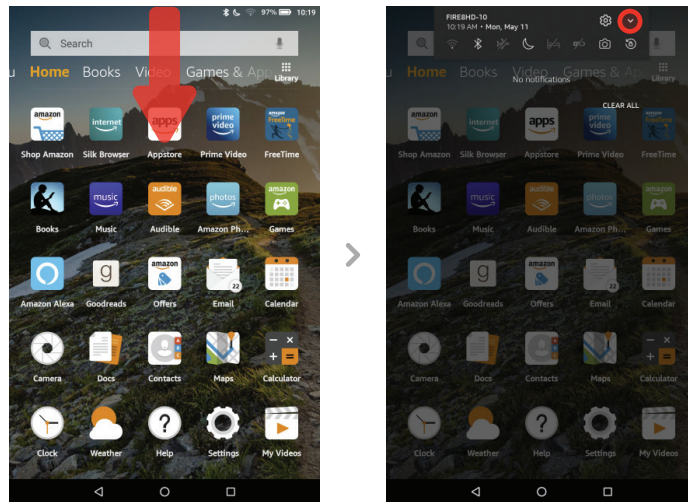

Next, select the **Games & Apps** tab, and then select the games you've downloaded. Press the **Done** button when you are finished.

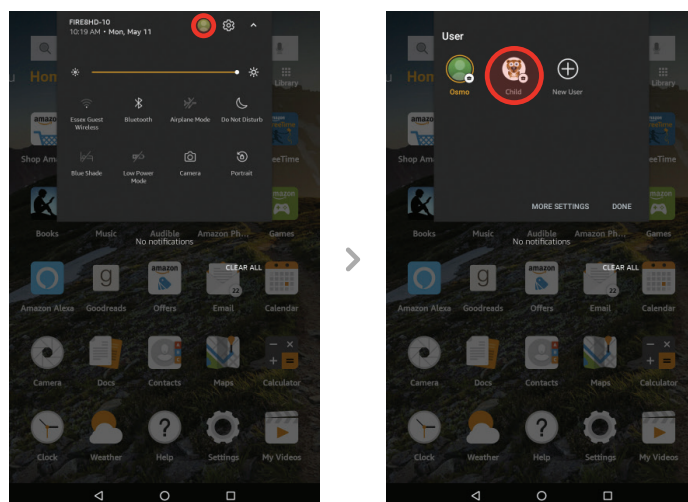

STEP 11

Switch to Freetime (kid profile) to install and play your games!

To change profiles, start by swiping down from the top of the screen to reveal the top menu. Then swipe down / tap on the small arrow to expand the menu.

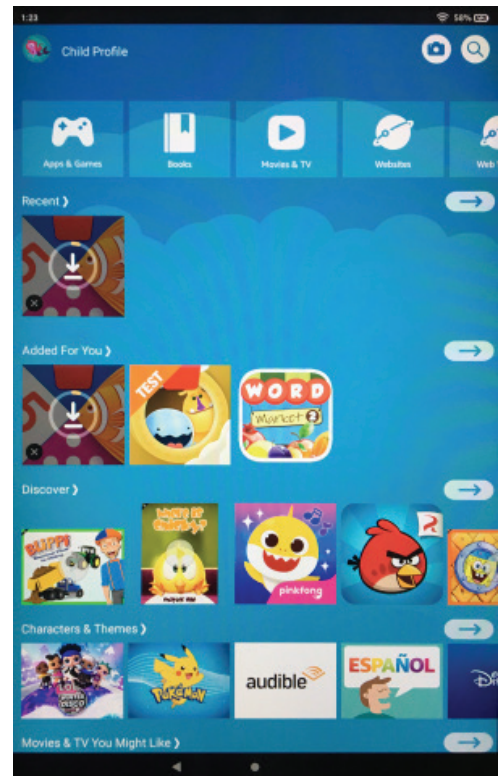

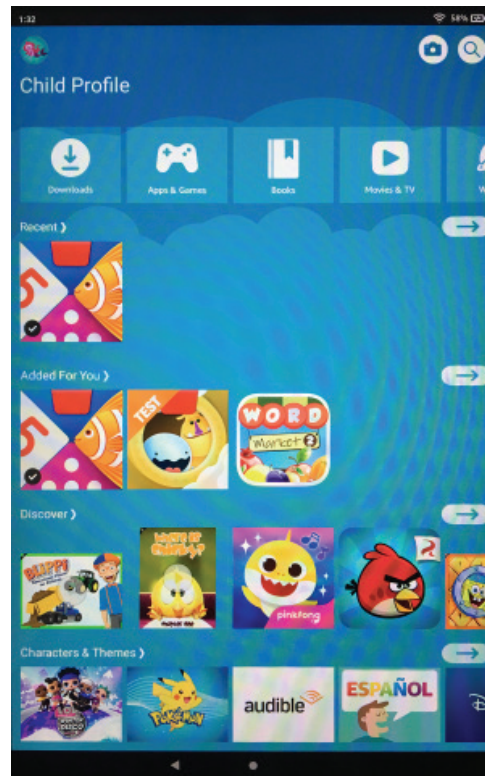

Select the profile icon on the top right to view all profiles. Tap on your child's profile icon to change to that profile.

STEP 11 (Cont'd)

When in your child's profile, tap on the games you've added in the **Added For You** section to install them. After they finish installing, they are ready to play!

STEP 12

Create a myOsmo account and add a profile for each player

With a myOsmo account, the child's game progress will be saved in case the app gets deleted or the player switches devices.

To create a myOsmo account:

1. Open an Osmo game.
2. Tap **"myOsmo"** in the top right corner
3. Tap **"Create Free Account"**
4. Follow the prompts to create your myOsmo account.

STEP 13

Adequate lighting in the room

Avoid spotlights on the game pieces, ensure that light isn't coming from behind (creates shadows).

STEP 14

Download the parent app to your phone in order to keep track of player progress in games

You can download the Parent app by using the search bar in the Apple App Store or Google Play Store.
