i Setting Up Touch 2 Hub

Touch 2 Hub is designed to be quick and simple to setup.

Just follow the quick start set up sequence and you will soon have total control over your home heating system.

! System Requirements

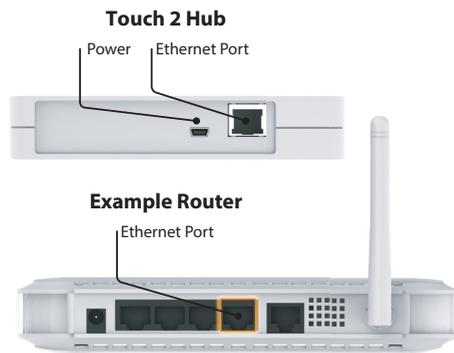

- An active broadband connection.
- 230v mains supply (Adaptor supplied).
- A broadband router with DHCP function.
- A mobile device running iOS or Android Operating System.

1 Connect Power

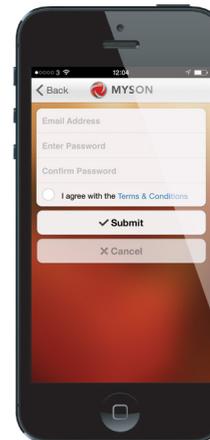

Connect the power supply to the Touch 2 Hub.

Connect the Touch 2 Hub to the router with the Ethernet cable provided – the router will assign an IP address to the Touch 2 Hub.

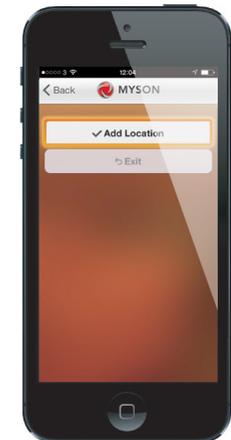

2 Download Application

Connect your mobile device to the same wifi network as your Touch 2 Hub. Download the FREE Myson Touch 2 App from the Apple App Store, Google Play Store and register an account.

3 Add Location

Once registered, select the add location option and follow the instructions.

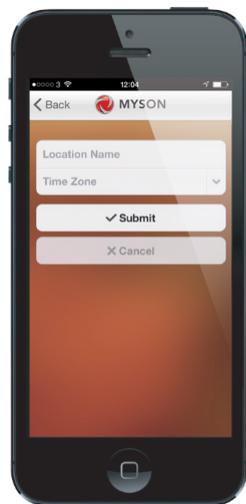

4 Connect To Touch 2 Hub

Press the connect button on the Touch 2 Hub to add the Location to your Account.

5 Name Your Touch 2 Hub

When successfully connected, add a title for the new location (e.g. Home) and configure the time zone for the system.

6 Add Zone

The next step is to join Touch 2 WiFi Thermostats to the Touch 2 Hub. Select Add Zone in the Touch 2 App.

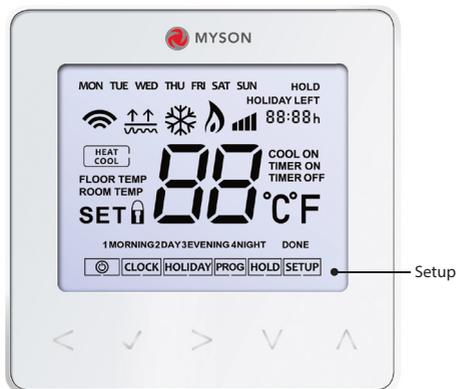

7 Assign A Zone Name

You should now enter the name for this new zone and then press Add Zone.

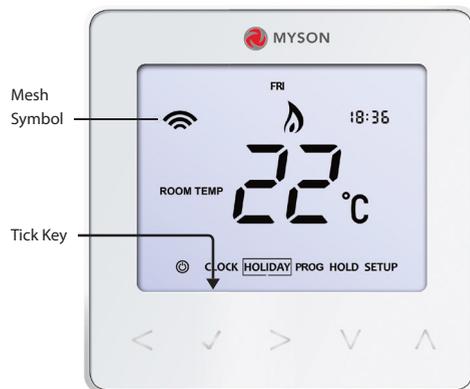

8 Pair Your Touch 2 WiFi

On the Touch 2 WiFi, use the Left / Right keys to select SETUP and press Tick <> ✓
Feature 01 is displayed on screen.

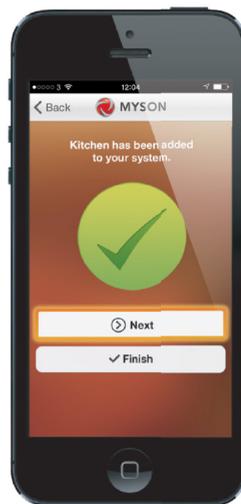

9 Pair Your Touch 2 WiFi

Press the Tick key to pair the Touch 2 WiFi to the Touch 2 Hub ✓
The MESH symbol appears flashing on the display.
When the Touch 2 WiFi successfully connects to the Touch 2 Hub the MESH symbol will then be permanently displayed.

10 Add Another Zone

When complete, press Next and repeat these steps for all additional zones on the network.

11 Complete Setup

When all zones have been added, press Finish on the app to complete setup.
