Affordable Loans when You Need Them Most

"There's no comparing Wright-Patt Credit Union® (WPCU®) to another financial institution. WPCU is so much easier to work with, which means less headaches. It's a breeze! Everyone's always willing to help me when I need it. They even helped correct some things for me on my account. They helped me get my first Personal Loan in 15 years because this year I owed Uncle Sam some money. They didn't require a lot of documentation. It is just convenient."

*** APR for a Signature loan is a fixed rate for the duration of the loan. The APR will vary from 11.99% APR to 18.00% APR, depending upon your creditworthiness; the APR will be determined at the time your application is approved. Loan amounts up to \$7,999 have a maximum term of 48 months and loan amounts \$8,000 or more have a maximum term of 60 months. For example, a Signature loan for \$7,000 with a 48-month term (4 years) at 11.99% APR will have a monthly payment of \$184.34. Other rates, terms, payments, and loan amounts are available. The minimum loan amount is \$500, and the maximum loan amount is \$50,000. If your payment is 11 or more days late, there is a Late Payment Fee of 5% of the payment due. There will be a \$75 Rate Modification Processing Fee each time we approve a request to lower your APR.

† All loan applications are subject to credit review and approval. Annual Percentage Rates (APRs) are accurate as of 1/1/2025 and may change at any time. The APR is variable, based upon an index plus a margin; the index is based on the highest Prime Rate (the index) as published in the Wall Street Journal in effect on the last day of each calendar quarter that ends within the billing cycle, currently 7.50% APR. The APR for the Home Equity Line of Credit may increase or decrease quarterly, but will never fall below 4.00% APR and will never exceed 25.00% APR. The APR will vary from Prime Rate + 0.00% (currently 7.50% APR minimum) to Prime Rate + 5.50% (currently 13.00% APR), depending upon your creditworthiness and the loan-to-value (LTV) based on an assessment of the property value. Certain advertised rates may not be available to all applicants depending on the applicant's credit score tier. The term is 25 years, consisting of a 15-year draw period with interest-only payments, followed by a 10-year repayment period with principal + interest payments. Making only the minimum payment each month during the draw period will not reduce principal, and your payments during the repayment period may substantially increase from what you paid during the interest-only period. The amount of savings realized with debt consolidation varies by loan. Since a Home Equity Line of Credit may have a longer term than some of the bills being consolidated, there may not be a savings over the entire life of the line if you make only the minimum payments. Federally guaranteed student loans and other loans with special government benefits should not be consolidated because you may lose the benefits afforded by those loans. The property value is based on an approved valuation method determined by Wright-Patt Credit Union. Assessment of the property may require an appraisal based on the loan amount or LTV of the property; the cost of this appraisal may vary up to \$475, which is included in the closing costs. Property must be an owner-occupied single-family residence, a second home located 50 miles or more away from borrower's primary residence, a duplex, or a property of up to four units, if owner-occupied, and property is the primary residence of the applicant. Property insurance is required on the property securing the loan, and flood insurance is required when the property is located in a flood zone. The minimum credit line is \$10,000, and the maximum credit line is \$250,000; line amount is dependent on LTV and the borrower's creditworthiness. Assessment of the property may require an appraisal based on the loan amount or LTV of the property. If your payment is more than 10 days late, there is a Late Payment Fee of 5% of the payment due. There will be a \$75 Rate Modification Processing Fee each time we approve a request to lower your interest rate. Consult a tax advisor regarding the deductibility of interest.
